SECTION I – INTRODUCTORY SECTION

June 24, 2019

Honorable Mayor
Board of Aldermen
Citizens of the City of Marshfield, Missouri

We are pleased to present for your review the City of Marshfield's Comprehensive Annual Financial Report (CAFR) for the fiscal year that ended December 31, 2018. This report represents a culmination of twelve months of financial activity that is presented in conformance with generally accepted accounting principles (GAAP).

City staff is responsible for the completeness and accuracy of the financial data being presented. It is to the best of our knowledge and belief, that the information being reported in this document presents fairly the financial position of the City and the results of operations, in all material respects.

The City's financial statements were audited in accordance with generally accepted auditing standards by an independent firm of certified public accountants, Decker & DeGood. The purpose of Decker & DeGood's audit is to express an opinion on the City's financial statements by obtaining a reasonable assurance that the financial statements are free from material misstatement. The independent audit involved performing procedures to obtain audit evidence of the appropriateness of accounting policies used, the amounts and disclosures in the financial statements as well as evaluating the overall presentation of the financial statements. The independent auditor's report is located at the beginning of the financial section of the CAFR.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A compliments this letter of transmittal and should be read in conjunction with it. The basic financial statements and notes provide an overview of the City's financial position and operating results. The combining statements for nonmajor funds, and other schedules provide detailed information relative to the basic financial statements.

The statistical section includes selected financial and demographic information, generally presented in a multi-year basis. This section is designed to provide the user with a broader and more complete understanding of the City and its financial affairs than is possible from only the financial statements and supporting schedules presented in the financial section.

BUILDING COMMUNITY *Together*
Mayor Robert Williams

Aldermen Rob Foster, Mark Bowers, Vicki Montgomery & Stacy Lee

CITY OF MARSHFIELD, MISSOURI

Marshfield is located in southwest Missouri, is the county seat of Webster County has approximately 7,245 residents. The City encompasses an estimated five square miles of land and is approximately 25 miles northeast of Springfield. In addition to Interstate 44, two cross-country routes, the legendary Route 66 and bicycle Route 76 intersect in Marshfield.

The City of Marshfield provides a full range of services, including water services, wastewater services, street maintenance, cemetery, police and fire protection, parks and recreational facilities and programs, planning and zoning, municipal court, and general administrative services. The City's Street Maintenance Department provides maintenance for surfaced streets and alleys, City owned right of ways, property, buildings and structures. Marshfield's Public Water System provides water to approximately 3,000 metered customers. The City is currently working with an engineering firm to improve the quality of the City's water system by adding more storage for the water supply, re-plumbing and re-piping our current elevated storage tanks and augment the city's existing disinfection equipment. The City operates a modern, EPA and MoDNR permitted, Complete Mix Activated Sludge Wastewater Facility. The Facility can provide treatment of up to 1.5 million gallons per day of sewage and up to 3.5 million gallons per day of wet weather inflow to the collection system.

PROFILE OF THE GOVERNMENT

The City of Marshfield operates as a fourth class city under the Revised Statutes of the State of Missouri (RsMO) and is divided into two wards, the West Ward and the East Ward. The City is governed by a Mayor and four aldermen, two from each Ward. The Mayor is elected at large by the voters of the city every two years. Aldermen are elected by the voters in their respective Wards to serve a staggered two-year term.

As the legislative body, the Board of Aldermen is responsible for enacting all ordinances, resolutions and regulations governing the City. Appointment of the City Administrator, City Clerk, Municipal Judge, City Collector, Fire Chief, Chief of Police, City Attorney are made by the Mayor with the consent and approval of the majority of the members of the Board of Aldermen.

The City Administrator is the Chief Administrative Assistant to the Mayor and has general superintending control of the administration and management of the government business, officers and employees of the City, subject to the direction and supervision of the Mayor.

The annual budget serves as the foundation for the City's financial planning and control. The budget preparation begins with each department's detailed estimates of revenue and expenditures. The estimates are evaluated with the City's Finance Committee, which is comprised of citizens appointed by the Mayor as well as one Board of Aldermen member; City Administrator; department supervisors; and ultimately the Mayor and Board of Aldermen. The Board of Aldermen must approve the annual budget no later than December 31st preceding the beginning of the new fiscal year.

LOCAL ECONOMY

The total tax revenue for the City rose by 3.5% in 2018 and sales tax revenue increased by 4.8%. The City is empowered to levy property taxes on both real and personal property located within its boundaries and has the authority to extend its corporate limits through annexation when deemed appropriate and is approved by City Council.

ECONOMIC

Historically, the City has partnered on economic development efforts with the Marshfield Development League and the Marshfield Chamber of Commerce. While these partnerships continue, since 2016 Marshfield has continued to be one of five Missouri communities to be a part of the Growth in the Rural Ozarks (GRO) Grant program. This grant has helped to promote entrepreneurship, job creation and an improved quality of life in Marshfield through economic and workforce development. The grant was co-funded by the Community Foundation of the Ozarks (CFO), and the U.S. Department of Agriculture (USDA) and supported by the Marshfield Area Community Foundation (MACF). 2016 was the first year of this three-year grant and has evolved into the formal formation of GRO Marshfield as a non-profit entity with the Office of the Missouri Secretary of State. The GRO Marshfield program is focused on the following areas that collectively strive to improve the economy and quality of life in Marshfield:

- **Community Development**
 - Community Beautification
 - Housing Preservation
 - Community Growth
 - Community Health
- **Focused Business Growth**
 - Business Attraction
 - Business Outreach
 - Business Development and Resource
 - Micro-Finance Loan
- **Entrepreneurship and Innovation**
 - Student Engagement
- **Community Marketing**
 - Community Engagement and Branding
 - Webster County Route 66

MAJOR INITIATIVES

During Fiscal Year 2018, the City of Marshfield completed and continued work on the following major initiatives:

- Completed final design and awarded a contract for construction of a new \$5.3 million outdoor Aquatic Pool, which will be completed in May 2019.
- Finalized design for development of a second interchange on I-44 near mile marker 1.03.
- Finalized design for improvements to the Highway CC-Banning Street -Buffalo Street intersection to address transportation safety issues.

- Continued work designing improvements to the city's water system.
- Continued work designing improvements to the city's waste water systems.
- Began development of a long-range 'Growth Plan' for the community that is scheduled to be completed and adopted in 2019.
- Began development of a long-range Parks & Recreation Master Plan for the City's park facilities and recreational programs that is scheduled to be completed and adopted in 2019.

FINANCIAL INFORMATION

Consideration is given to the adequacy of internal accounting controls in developing the City's accounting system. Internal accounting controls are designed to provide reasonable assurance, but not absolute, that assets are effectively safeguarded and transactions are performed in accordance with management's authorization and are properly recorded. The cost of a control should not exceed the benefits and is recognized in the concept of reasonable assurance through the evaluation of cost and benefit estimates. It is our belief that within this framework the City's internal accounting control system adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Internal Budgeting Controls

All funds are budgeted on an annual basis. The Budget Officer is designated by the Board of Aldermen. Under the direction of the Budget Officer, the annual budget for all funds is prepared and submitted to the Board for approval. Management use the annual budget as a control tool for financial planning and a measurement tool for operational expenditure levels. Budgeting of the enterprise activity is necessary to ensure the level of user rates is sufficient to cover operational costs and to service debt.

The Board adopts the budget before the beginning of the fiscal year by ordinance. In no event shall the total authorized expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year. During the fiscal year, the City shall not increase the total amount authorized for expenditure from any fund, unless the Board adopts a resolution setting forth the facts and reasons making the increase necessary and adopts an ordinance authorizing the expenditures.

Relevant Financial Policies

Several policies have been developed and implemented by the City to ensure protection of the City's assets and to provide internal controls. Effective December 2012, the City's Purchasing Policy covers topics such as conflict of interest, competitive bidding and other purchasing procedures. Other City policies include Identity Theft Policy, Anti-Fraud Policy, Water and Sewer Rate Adjustment Policy, and Vehicle & Fleet Policy. In May 2018 the City also adopted an Investment Policy. The Investment Policy establishes the parameters for investing the City's unallocated funds and identifies the investment objectives, preferences, constraints on the where these funds can be invested as well as how the investment program is to be managed.

Debt Administration

As of December 31, 2018, the City of Marshfield had an outstanding debt balance of \$15,352,274 compared to a balance of \$1,730,397 on December 31, 2017. Of this balance, \$10,155,000 is general obligation debt. The remainder of the debt balance is comprised of the following:

- General Leasehold Agreements - \$82,120
- General Certificates of Participation - \$3,985,000
- Enterprise Revenue Bonds - \$1,120,000
- Enterprise Leasehold Agreements - \$10,154

OTHER INFORMATION

A community Vision Casting process was undertaken in 2013 and concluded in 2014. In 2018, in advance of undertaking the community Growth Plan, as previously described, a second Vision Casting effort was undertaken. In each of these efforts, the Vision Casting sessions began with meetings involving community groups: Business, Civic Leaders, Educators, Government, Parents, Pastors, Realtors, and Up and Comers (11th and 12 grade students), Older Adults, and Persons with Disabilities. These sessions were designed to bring the Marshfield community together to inclusively identify priorities and future goals. These priorities and goals are the foundation for the design and implementation of the City's Strategic Plan and Growth Plan. As a result of the community Vision Casting process, various community needs were identified and prioritized by each of the eight groups. The needs and priorities of each group were then discussed and combined that resulted in the following three community priorities:

- Economic Development
- Activities / Entertainment
- Employment Opportunities

The direction established by the Marshfield Community Vision Casting process, is now leading the initiatives and direction of the community and influences the initiatives undertaken by the city as well as the city's annual budgeting process.

ACKNOWLEDGEMENTS

We would like to extend our appreciation to the Mayor, the Board of Aldermen, the department directors, all city employees and those volunteers who serve on the City's Finance Committee for their oversight of the of the City's resources in providing quality services to Marshfield residents. We would also like to thank our auditors, Decker & DeGood, P.C. for their help in formulating this report.

Respectfully submitted,

John Benson

SECTION II – FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Aldermen
City of Marshfield, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marshfield, Missouri, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marshfield, Missouri, as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplementary information and introductory and statistical section, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We have applied certain limited procedures to the other information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provided any assurance on them.

Decker & DeGood
Springfield, Missouri
May 10, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Marshfield, Missouri (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2018. We encourage readers to use this document in conjunction with the transmittal letter in the Introductory Section of this report and with the City's financial statements, which begin on page 12.

Financial Highlights and Significant Events

- On a government-wide basis, the assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources for the most recent fiscal year by \$ 26,066,553. The City has unrestricted net position totaling \$ 5,830,979 which can be used to fund the City's functions/programs.
- As of December 31, 2018, governmental activities and business-type activities had net positions of \$ 13,088,937 and \$ 12,977,616, respectively.
- At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$ 17,002,249, an increase of \$ 12,823,144 in comparison with the prior year. Approximately 9.58 percent or \$ 1,629,996 is available for discretionary spending by the City. The remaining fund balance is either restricted by outside parties or not in spendable form.
- The unassigned fund balance for the General Fund, \$ 1,629,996 is 73.9% of total General Fund expenditures, and is an increase in comparison with the prior year unassigned fund balance.
- The City's long-term debt obligations increased by \$ 14,014,088 or 809.9% as compared to fiscal year 2017.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Marshfield's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Marshfield's finances, in a manner similar to private-sector business. All governmental and business-type activities are consolidated to arrive at a total for the City. There are two government-wide statements, the statement of net position and the statement of activities, which are described below.

The Statement of Net Position presents information on all of the City's assets, liabilities, and deferred inflows/outflows, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the current fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Marshfield that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, judiciary, public safety, transportation, culture and recreation. The business-type activities include the Water and Sewer systems.

The government-wide financial statements can be found on pages 12 and 13 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control and accountability over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law, while others are established to help control and manage money for a particular purpose. The City's two kinds of funds are as follows:

- Governmental funds – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the accrual method of accounting, which measures cash when earned and expenditures incurred. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.

The City of Marshfield adopts an annual budget for its governmental funds and a comparison of actual to budget has been provided to demonstrate compliance with the authorized budget. The Statement of Revenues, Expenditures and Changes in Fund Balance on a Budgetary Basis can be found on pages 51-52 and 57.

The basic governmental fund financial statements (Balance Sheet and Statement of Revenues, Expenditures and Change in Fund Balance) can be found on pages 14-17 of this report.

- Proprietary funds – When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise fund is the same as the business-type activities we report in the government-wide statements but provides more detail and additional information, such as cash flows. The basic proprietary fund financial statements (Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows) can be found on pages 18-20 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-49 of this report.

Required Supplemental Information

In addition to the basic financial statements the required supplementary information can be found on pages 50-54 of this report with the supplementary information on pages 55-57.

Government-Wide Financial Analysis

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$ 26,066,553 at the close of the most recent fiscal year.

The City's net investment in capital assets (land, construction in progress, buildings, equipment, improvements, and infrastructure) totals \$ 23,059,701. As capital assets, these resources are not available for future spending, nor can they be readily liquidated to pay off their related liabilities. Resources needed to repay capital-related debt must be provided from other sources.

City of Marshfield's Net Position

	Governmental Activities		Business-type Activities		Total	
	2018	2017	2017	2017	2018	2017

**City of Marshfield
Changes in Net Position**

Government-Wide Financial Analysis-continued

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$ 5,830,979 is explained further below.

At the end of the current fiscal year, the City is able to report positive balances in both categories of net position for the City as a whole. The reporting model includes the reporting of the City's infrastructure as a capital asset, including assets acquired retroactive to 1980.

Changes in Position. The City's total net position increased by \$ 1,871,729. This increase in net position is a result of continued economic growth. Key elements to the changes in net position follow:

	Governmental Activities		Business-type Activities		Total	
	2018	2017	2018	2017	2018	2017
Revenues:						
Program Revenues:						
Charge for services	\$ 287,919	\$ 208,862	\$ 2,704,076	\$ 2,611,808	\$ 2,991,995	\$ 2,820,670

Governmental activities. Governmental activities increased the City's net position by \$ 996,030, thereby accounting for 53.2% of the total growth in the net position of the City. Compared to last year's growth for Governmental activities, this was a decrease of \$ 1,137,608, which was most notable due to an increase in operating cost of major departments.

Business-type activities. Business-type activities increased the City's net position by \$ 875,699, thereby accounting for 46.8% of the total growth in the net position of the City. This was a decrease of \$ 43,732 over the prior year. This was due to modest increase in operating expenses offset by a modest increase in revenue.

In reviewing the current to the past year on the Water and Sewer Funds, we noted the following:

	2018	2017	Change	
			Amount	%
Water Fund				
Revenue	\$ 1,438,541	\$ 1,387,632	\$ 50,909	3.67%
Expense net of Depreciation	696,722	575,024	121,698	21.16%

Sewer Fund				
Revenue	1,265,535	1,224,176	41,359	3.38%
Expense net of Depreciation	789,485	718,742	70,743	9.84%
Operating Income	274,321	275,546	(1,225)	-0.44%

Financial Analysis of the City of Marshfield's Funds

As noted earlier, the City uses fund accounting to demonstrate compliance with legal or finance-related requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on the near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental fund balance is reported in five separate categories: Nonspendable, restricted, committed, assigned, and unassigned. Nonspendable fund balance includes amounts that cannot be spent for legal or practical reasons. Examples include prepaid items and inventory. Restricted fund balance includes amounts restricted to specific purposes by external parties such as amounts restricted for specific purposes such as streets and parks.

Committed fund balance includes amounts that have been set aside by the City Council for a specific purpose prior to the end of the fiscal year. Assigned fund balance includes amounts that have been set aside by the City Council for a specific purpose, but subsequent to the end of the fiscal year. Unassigned fund balance includes all remaining amounts.

As of the end of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$ 17,002,249 with an increase of \$ 12,823,144 compared to the prior fiscal year. Of the total balance, \$ 68,030 is nonspendable, \$ 15,304,223 is restricted, and \$ 1,629,996 is unassigned.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the General Fund reported a fund balance of \$ 1,683,144 of which \$ 53,148 is nonspendable and \$ 1,629,996 is unassigned.

Fund balance of the General Fund increased \$ 222,948 over the prior year as compared to the prior year totals were approximately the same excluding the sale of a building in 2017.

The fund balance of the Transportation Sales Tax Fund increased by \$ 10,220,393 which was attributable G.O. Bond issue of \$ 10,000,000 for the I-44 project.

The Park Fund balance increased \$ 2,315,699 which was reflected by the issuance of Certificates of Participation of \$ 3,985,000 less \$ 2,226,571 of construction to date on the new water park.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position in the City's major proprietary funds totaled the following: \$ 909,200 in the Water Fund and \$ 730,383 in the Sewer Fund. The finances of these funds were discussed earlier as part of the business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City's 2018 budget was adopted December 21, 2017. The General Fund expenditure budget, including transfers, was \$ 2,182,089. The amended year-end expenditure budget was increased by 1.05% to \$ 2,205,962. This increase includes the purchase of a new network server, postage machine, expenses related to the new City Hall building which included asbestos removal, soffit, water pipes and an interior door. The increase also includes some street paving projects, a Fire Department turn out gear/hose dryer and a radio tower generator. Transfers out include the transfer to the Parks and Recreation Department. Transfers in include the payment-in-lieu of taxes (PILOT) from the Water and Sewer Funds. Transportation and Park Fund budgets were amended for new debt issuance and capital improvements to year end.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The City of Marshfield's investment in capital assets for its governmental and business-type activities as of December 31, 2018 amounts to \$ 23,059,700 (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery, equipment, vehicles, roads, water and sewer treatment plant. The total increase in capital assets for the current year was approximately 18.8%

	Governmental activities		Business-type activities		Total

Major capital assets events during the current fiscal year include the following:

- Start of construction on water plant expansions \$ 253,800
- Completion of sewer plant expansion \$ 495,542
- Land purchase for water and sewer funds \$ 170,138
- Start of construction on I-44 project \$ 1,470,244 and aqua park \$ 2,220,548

Additional information on the City's capital assets can be found in Note D of the notes to the financial statements of this report.

Long-term Debt

At year-end, the City had \$ 15,352,274 outstanding notes as compared to the prior year of \$ 1,730,397.

	Governmental Activities		Business-type Activities		Total

Additional information on the City's long-term debt can be found in Note E of the notes to the financial statements of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City of Marshfield's FY19 Budget identifies a total of \$7,290.929 in revenues and \$7,876,760 in expenses. The cost of the expenditures that exceed budgeted revenues are being funded from previous years' revenues that have been accumulating for upcoming projects. The FY19 Budget for the City's General Fund projects \$2,035,977 in revenues, including transfers in, and \$2,310,088 in expenses. Transfers in to the General Fund include the PILOT transfers from the Water and Sewer Funds. The General Fund provides funding for the City's Administration Department, Street Department, Police Department, Municipal Court, Fire Department, Building and Codes Department, Animal Control and a portion of the Parks Department.

The City's Administration Department is projected to expend \$376,353 for operations and maintenance. Revenue projections for the Street Department is \$264,482 and expenditures are \$602,696, which includes \$201,000 for paving projects and \$50,000 for the department's share of a new dump truck. The Police Department revenue projection is \$3,000 and the expenditures are \$1,026,460. The Police Department expenditures include employing a 12th officer, the lease purchase of two new patrol vehicles and the purchase and installation of each vehicle's their respective equipment. The Municipal Court revenues are budgeted at \$113,320 and expenditures are \$63,398. The Fire Department revenues are \$7,000 and expenditures are \$272,840. The \$7,000 revenue is for an EMT training class that will be offset by the expense of the class. Included in the Fire Department's expenditures is replacing a weather siren that is no longer reliable. The Building and Code Enforcement Department revenues are projected to be \$25,200 and the expenses as \$95,019.52 The Building and Code Enforcement Department includes contracting for a part-time building inspector and Planning & Zoning Commission consultant advisory

services. Animal Control Department revenue is budgeted as \$2,300 and expenditures are \$43,503.

The Parks Department is funded by both the General Fund and the Restricted Parks Fund. Through the General Fund, the Parks Department revenue is projected as \$103,213 and the expenditures are \$195,088. The Restricted Parks revenue is projected as \$885,824 and expenditures are \$1,974,445. Restricted Parks expense includes the full cost of the Pour-in-Place Grant \$225,060 and revenue of \$112,530 for the grant's matching reimbursement from the Missouri Department of Natural Resources. Restricted Parks revenues and expenses include operating the new aquatic pool set to open Memorial Day weekend. Also budgeted are the principal and interest payments for the outdoor aquatic pool Certificates of Participation (COPs) debt service.

The City's Waste Water Treatment Plant Fund revenues are budgeted as \$910,500 while expending \$974,649. Expenditures include the department's share of a new dump truck for \$50,000. The Water Department Fund revenues are budgeted as \$917,800 and expending \$948,482. The Water Department expenditures include hiring a full-time employee, cost sharing of a new dump truck for \$50,000 and water line replacement projects.

The Waste Water Treatment Plan Capital Improvement Projects (CIP) and the Water CIP are budgeted to be combined for FY19. Previously, the \$14.00 CIP charge per user was allocated as \$9.00 to Wastewater CIP and \$5.00 to Water CIP. This fee is to be used for capital projects and for debt service for capital projects. Both the Waste Water Treatment Plant and the Water Department are in the process of system improvements. The Combined Waste Water Treatment Plant and Water CIP budgeted revenue is \$728,704, which includes \$244,000 as a reimbursement from the State Revolving Fund (SRF) through Missouri Department of Natural Resources for Water System improvements. The expenditures in the amount of \$737,704 include a Vactor truck, GIS mapping of the Water and the Waste Water system and design fees for the north side expansion to the new I-44 interchange area.

The Transportation Fund revenues are budgeted as \$689,208 and expenditures are 705,414. The expenditures include a payment to MoDOT in the amount of \$651,900 for Highway CC/Hubble/Banning Street and Buffalo Street intersection improvements.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Office at 798 S. Marshall Street, Marshfield, Missouri

CITY OF MARSHFIELD, MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2018

Net change in fund balances--total governmental funds	\$ 12,823,144
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	3,948,039
Depreciation expense	(544,748)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds	
Change in pension expense	9,814
Change in compensated absences	7,002
Premium on bond issued	(1,026,175)
Change in accrued interest	(196,932)
Because some revenues will not be collected for several months after the City's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Unavailable revenues decreased by this amount this year.	
	(28,785)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the same statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Issuance of lease obligation	(29,088)
Payment on long term debt	18,759
Issuance of G.O. Bonds and Certificate of Participation	<u>(13,985,000)</u>
Change in net position of governmental activities	<u><u>\$ 996,030</u></u>

See the accompanying notes to the financial statements.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Marshfield (the City) were prepared in accordance with accounting principles generally accepted in the United States of America for governmental entities (U.S. GAAP). The following summary of the more significant policies of the City is presented to assist the reader in interpreting these financial statements, and should be viewed as an integral part of this report.

THE REPORTING ENTITY

Entity status for financial reporting purposes is governed by Governmental Accounting Standards Board (GASB). The GASB is the standard-setting body for the establishment of GAAP in governmental entities. The financial statements of the City present the financial activities of the City and any component units. The City is the primary government unit. Component units are those entities which are financially accountable to the primary government, either because the City appoints a voting majority of the component unit's Board or because the component unit will provide a financial benefit or impose a financial burden on the City. The City does not have any component units.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund financial statements. Separate financial statements are provided for governmental funds and proprietary funds. Separate columns are presented for each major governmental fund and for each major enterprise fund. Non-major funds are aggregated and presented in a single column labeled “Nonmajor Governmental Funds.”

Governmental Fund Types: Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use and balances of the City’s expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The following are the City’s major governmental funds:

General Fund

The General Fund is the government’s primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Transportation Sales Tax Fund

This fund was established to account for the proceeds of transportation sales tax that is legally restricted to expenditures for the purpose of street improvements, repairs and maintenance, and payment of 2018 General Obligation Bond for street improvements.

Park Fund

This fund was established to account for the proceeds of property tax revenue that is legally restricted to expenditures for the purpose of park and recreation activities. In addition the City passed a one half cent sales tax for park/storm water which is reported in this fund.

Proprietary Fund Types: Proprietary funds are used to account for the City’s ongoing activities that are similar to those often found in the private sector. The following are the City’s major proprietary funds:

Water Fund

The Water Fund accounts for the operations of providing water services to the residents of the City.

Sewer Fund

The Sewer Fund accounts for the operations of providing sewer services to the residents of the City.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Additionally, the government reports the following nonmajor fund:

Cemetery Fund

This fund was established to account for the proceeds of property tax revenue and other sources that are legally restricted to expenditures for the purpose of operation of the City cemetery.

Debt Service Fund

This fund was established to account for the proceeds of property tax revenue that is legally restricted to expenditures for the purpose of retirement of principal, interest and agents' fees for general obligation bonds

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recognized at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the City gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current fixed period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. General revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation, the principal operating revenues of the enterprise fund are charges for services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

ASSETS, LIABILITIES AND NET POSITION/FUND BALANCE

Cash and Cash Equivalents

The City pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

Statement of Cash Flows

For the purpose of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investments

State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements. Investments are stated at fair value. For the year ended the City had \$ 9,612,267 in certificates of deposits, stated at cost, and secured by pledged assets by the bank.

Restricted Assets

The City elects to use restricted assets before unrestricted assets when the situation arises where either can be used. Certain assets are classified as restricted assets because their use is limited by applicable debt or other agreement.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Due to and due from other funds

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

Inventories

The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased.

Prepaid items

Payments made to vendors for services that will benefit periods beyond the fiscal year-end are recorded as prepaid items. The cost of governmental fund-type prepaids is recorded as an expenditure when consumed rather than when purchased.

Accounts receivable and Unbilled Usage

Accounts receivable are stated at net with allowance for doubtful accounts of \$ 2,877 for water, \$ 2,414 for sewer and a total of \$ 13,725 for property taxes. All other receivables represent amounts collected within 60 days and therefore no need for an allowance. Unbilled usage for service consumed between periodic billing dates is recognized as revenue in the period in which service is provided.

Capital Assets and Depreciation

Capital assets, which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$ 1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation. The estimated useful lives for each major class of depreciable capital assets are as follows:

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Depreciation - continued

Utility plants	20 to 50 years
Buildings	40 years
Infrastructure	20 to 40 years
Furniture and equipment	5 to 10 years
Vehicles	5 to 10 years

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the City has one item that meet the definition of deferred outflows of resources. This amount is related to pension outflows as per GASB 68.

Deferred Inflows of Resources/Unavailable Revenue/Gain on Debt Issuance

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. In the Governmental Funds the item reported as a deferred inflow of resources arises only under a modified accrual basis of accounting. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Inflows of Resources/Unavailable Revenue/Gain on Debt Issuance - continued

At this time, the City has two items that meet the definition of deferred inflows of resources. It is the deferred gain on refunding reported in the government-wide statement of net position and the statement of net position for proprietary funds. A deferred gain on debt issued results from the difference in the carrying value of the debt and the proceeds from the debt issuance. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pension inflows as per GASB 68.

Obligation for Bond Arbitrage Rebate

Pursuant to Section 148(f) of the U. S. Internal Revenue Code, the City must rebate to the United State Government the excess of interest earned from the investment of certain debt proceeds and pledged revenues over the yield rate of the applicable debt. Arbitrage rebate, if any, is due and payable on each five year anniversary of the respective debt issue. As of December 31, 2018, the City had no outstanding arbitrage rebate liability.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri Local Government Employees Retirement System (LAGERS) and additions to/deductions from LAGERS fiduciary net position have been determined on the same basis as they are reported by LAGERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are report at fair value.

Long-term Debt

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt is reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, and losses on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed during the current period.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances

Fund balances are classified as follows:

Nonspendable-This classification includes amounts that cannot be spent because they are in a nonspendable form, or they are required to be maintained intact.

Restricted-This classification includes amounts that can be spent only for specific purposes because of the City Charter, City Code, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed-This classification includes amounts that can be used only for specific purposes determined by a formal action by the City Council. Such formal action may be in the form of an ordinance and may only be modified or rescinded by a subsequent formal action.

Assigned-This classification includes amounts that are intended by the City to be used for a specific purpose but are neither restricted nor committed. Assignments may be made only by the government body or official.

Unassigned-This classification represents the residual positive net resources of the General Fund in excess of what can properly be classified in one of the other four categories and include all deficit amounts in all other government funds.

The details of the fund balances are included in the Governmental Funds Balance Sheet (page 13). As discussed in Note A, restricted funds are used first as appropriate. Assigned Funds are reduced to the extent that expenditure authority has been budgeted by Council or the Assignment has been changed by the Mayor. Decreases to fund balance first reduce Unassigned Fund balance; in the event that Unassigned Fund Balance becomes zero, then Assigned and Committed Fund Balance are used in that order.

The fund balance of the City's General Fund has been accumulated to provide stability and flexibility to respond to unexpected adversity and/or opportunities. Currently the General Fund has set aside \$ 429,405.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of cost of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. This net investment in capital assets amount also is adjusted by any bond issuance deferral amounts. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors,

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position - continued

grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

Compensated Absences

City employees are entitled to certain compensated absences based on their length of employment. With minor exceptions, compensated absences either vest or accumulate and are accrued when they are earned.

Revenue Recognition

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1, and are due and payable at that time. All unpaid taxes levied October 1 become delinquent January 1, of the following year. Levy for 2018 was \$.6118 with a valuation base of \$ 88,417,818 broken down as follows: \$.1310 Cemetery, \$.1108 Parks, and \$.3700 Debt Service.

Sales Taxes

The City has three sales tax authorizations, a one cent City general sales tax, ½ cent transportation tax that was voted to extend past the original 2020 deadline, and a ½ cent park/storm water sales tax reported in the park fund.

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The City is required by Missouri State Law RSMo 105.485 to prepare a budget each year based on estimates of revenues and expected expenditures which include at a minimum a budget message, budget summary, schedule with prior year comparison of estimated revenue and expenditures, schedule of bonded debt obligations and budget approval letter. The accompanying

CITY OF MARSHFIELD, MISSOURI
 NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - continued

statement of revenues, expenditures and changes in fund balance - budget and actual includes the budgeted expenditures for the year, along with management’s estimate of revenues for the year for both the original budget and the final budget which is reflective of any amendments throughout the fiscal year. The legal level of budgetary control is at the total fund level.

Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (modified accrual basis) for all governmental funds.

Excess of expenditures over appropriations

For the year ended December 31, 2018, expenditures did not exceed appropriations in any of the Governmental Funds.

Bond Reserve Compliance

The City was in compliance with required bonded debt reserves for the year.

Debt restrictions

General obligation debt

Article VI, Sections 26 (b) and (c), Constitution of Missouri, limits the outstanding amount of authorized general obligation debt of a City to 20 percent of the assessed valuation of taxable tangible property as shown by the last completed assessment for state or county purposes. Authorization for debt issuance requires by four-sevenths at the general municipal election day, primary or general elections and two-thirds at all other elections, vote of the qualified electors thereof. The computed legal debt margin of the City at December 31, 2018, was:

Constitutional Debt Limit	\$ 17,683,564
Outstanding G.O. Bonds	<u>(10,155,000)</u>
Legal debt margin	<u><u>\$ 7,528,564</u></u>

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Debt restrictions - continued

Other long-term debt

Article VI, Section 26 (a), Constitution of Missouri, limits the outstanding indebtedness of a City without popular vote to an amount exceeding in any year the income and revenue provided for such year plus any unencumbered balances from previous years. For the year ended December 31, 2018, the City was in compliance with this requirement

DETAILED NOTES ON ALL FUNDS

NOTE B – CASH AND INVESTMENTS

The City maintains a cash and investment account for each fund. Each fund account is displayed on the combined balance sheet as either "cash, investments, board designated investments, or bank overdrafts". In addition, investments are separately held by several of the City's funds. Deposits and investments are stated at cost, which approximates market.

Deposits. Certificates of deposit are classified as investments but are considered deposits for custodial risk determination. Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's bank deposits are required by state law to be secured by the deposit of certain securities specified at RSMo 30.270 with the City or trustee institution. The value of the securities must amount to the total of the City's cash not insured by the Federal Deposit Insurance Corporation.

As of December 31, 2018, the City's bank balances were entirely secured or collateralized with securities held by the City or by its agent in the City's name.

Investment Policies

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City does not have a written investment policy covering credit risk.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City does not have a written investment policy covering interest rate risk.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a written investment policy covering concentration of credit risk.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE B – CASH AND INVESTMENTS (Continued)

Investment Policies - continued

Custodial Credit Risk is the risk that in the event of a broker/agent failure, securities that are uninsured and not registered in the name of the City and are held by either the counterparty to the transaction or the counterparty’s trust department or agent but not in the government’s name will not be returned to the City. The City does not have a written investment policy on custodial credit risk. However, all of the City’s investments are either insured or registered in the City’s name and held by the City’s agent.

NOTE C – RESTRICTED CASH/NET POSITION

				<u>\$ 1,353,754</u>	

The Proprietary Fund-Water Fund long-term debt as of December 31, 2018 follows:

On March 27, 2003, the City issued \$ 3,650,000 in Combined Waterworks and Sewerage System Revenue Bonds, State Revolving Fund Program Series 2003A, for the purpose of extending and improving the City's combined waterworks and sewerage system. Those bonds were refunded on November 20, 2003 with the issuance of the 2003 B Refunding Revenue Bonds paid the 2003A Revenue Bonds on November 20, 2003. The 2003 B Bonds bear interest at 2.00% to 5.00%. Principal payments are due annually July 1 with interest payments due semi-annually on January 1 and July 1 of each year. The bonds also require an administrative fee payable annually on July 1 of each year at 1.00% of the outstanding principal amount of the Revolving Fund Loan balance. Bonds maturing on or after July 1, 2016 are callable under various provisions of the bond ordinance.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE F – DEFINED BENEFIT PENSION PLAN

The City of Marshfield participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee retirement plan for units of local government which is legally separate and fiscally independent of the State of Missouri. The retirement system covers all full-time City employees.

Plan description

The City of Marshfield’s defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The City of Marshfield participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits provided

LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	2018 Valuation
Benefit Multiplier:	2.00%
Final Average Salary:	5 years
Member Contributions:	4.00%

Benefit terms provide for annual post retirement adjustments to each member’s retirement allowance subsequent to the member’s retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE F – DEFINED BENEFIT PENSION PLAN (Continued)

Employees covered by benefit terms

At June 30, 2018, the following employees were covered by the benefits terms:

Inactive employees or beneficiaries currently receiving benefits	23
Inactive employees entitled to but not yet receiving benefits	10
Active employees	34
 Total	 67

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4.0% of their gross pay to the pension plan. Employers contribution rates are 12.7 % General, 12.1% Fire and 16.5% Police of annual covered payroll.

Net Pension Liability

The employer’s net pension liability was measured as June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

Actuarial assumptions

The total pension liability in the February 28, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% wage inflation: 2.50% price inflation
Salary increase	3.25% to 6.55% including wage inflation
Investment rate of return	7.25% net of investment

Mortality rates were based on the healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees’ mortality table for males and females.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE F – DEFINED BENEFIT PENSION PLAN (Continued)

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2018. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale.

The actuarial assumptions were based on the 5-year experience study for the period March 1, 2010 through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	48.00%	4.81%
Fixed Income	28.50%	1.72%
Real Assets	23.50%	3.42%

Discount rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

NOTE F – DEFINED BENEFIT PENSION PLAN (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018 the employer recognized pension expense of \$ 220,255. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences in experience	\$ 113,965	\$ (209,337)
Differences in assumptions	136,157	-
Excess(deficit) in investment returns	-	(144,003)
Contributions subsequent to the measurement date*	99,329	-
Total	<u>\$ 349,451</u>	<u>\$ (353,340)</u>

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a decrease in the Net Pension Liability for the year ending December 31, 2019.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:	
2019	\$ 29,498
2020	(24,104)
2021	(77,574)
2022	(45,877)

Thereafter	7,943
Total	<u>\$ (103,218)</u>

Payable to the Pension Plan

At December 31, 2018, the City of Marshfield reported a payable of \$ 0.00 for the outstanding amount of contributions to the pension plan required for the year ended December 31, 2018.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE G – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage for property damage and various Missouri Official's bonds. Management believes coverage is sufficient to preclude any significant uninsured losses to the City.

At December 31, 2018, the City maintained commercial insurance coverage for building and contents and employee theft. In the past three years, the City had no losses that exceeded commercial insurance coverage.

NOTE H – GRANTS

Intergovernmental awards received by the City are subject to audit and adjustment by the grantor agencies. If grant revenues are received for expenditures, which are subsequently disallowed, the City may be required to repay the revenues to the funding agencies. No disallowed costs have resulted from this audit and management believes that further examination will not result in any disallowed costs.

NOTE I – INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2018, consisted of the following:

	<u>Transfers In</u>	<u>Transfer Out</u>
Debt Service Fund	\$ -	\$ 150,000
Water Fund	150,000	-
	<u>\$ 150,000</u>	<u>\$ 150,000</u>
General Fund	\$ -	\$ 87,736
Park Fund	87,736	-
	<u>\$ 87,736</u>	<u>\$ 87,736</u>
Water Fund	\$ -	\$ 55,259
Sewer Fund	-	43,074
General Fund	98,333	-
	<u>\$ 98,333</u>	<u>\$ 98,333</u>

Amounts of transfers from the Debt Service to the Water Fund represented payments of general obligation debt principal and interest. The amount from the General Fund to the Park Fund was for operation purposes. The transfers from the Water and Sewer Funds to the General Fund were a 5% fee in lieu of taxes based on customer sales.

Total Business-type Activities	<u>\$ 1,256,000</u>	<u>\$ 603,789</u>	<u>\$ 652,211</u>
Governmental Activities:			
Aquatic Pool	\$ 4,223,315	\$ 2,436,246	\$ 1,787,069
I-44 Exchange	10,000,000	2,116,633	7,883,367
Total Governmental Activities	<u>\$ 14,223,315</u>	<u>\$ 4,552,879</u>	<u>\$ 9,670,436</u>

NOTE K – FUTURE ACCOUNTING PRONOUNCEMENTS

The accounting principles governing the reported amounts, presentation and related disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various governing bodies. The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles (GAAP) for state and local governments.

The City adopted the following statements during the year ended December 31, 2018:

GASB Statement No. 75, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for OPEB. This Statement replaces the requirements of Statements No. 45 and No. 57. The Statement is effective for periods beginning after June 15, 2018.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE K – FUTURE ACCOUNTING PRONOUNCEMENTS (Continued)

GASB Statement No. 85, *Omnibus 2018 Activities*, issued March 2018, will be effective for the City beginning after June 15, 2018. This Statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]).

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, issued May 2018, will be effective for the City beginning after June 15, 2018. This Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources other than the proceeds of refunding debt-are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The City did not have any changes to report for the year ending December 31, 2018 upon adopting GASB 75, 85 and 86.

The Statements which might impact the City are as follows:

GASB Statement No. 83, *Certain Asset Retirement Obligations*, issued November 2016, will be effective for the City beginning with its fiscal year ending December 31, 2019. This Statement is to provide financial statement users with information about assets retirement obligations (AROs) that were not addressed in GASB standards establishing uniform accounting and financial reporting requirement for these obligations.

GASB Statement No. 84, *Fiduciary Activities*, issued January 2018, will be effective for the City beginning after December 15, 2018. This Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 87, *Leases*, issued June 2018, will be effective for the City beginning after December 25, 2019. This Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

CITY OF MARSHFIELD, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE K – FUTURE ACCOUNTING PRONOUNCEMENTS (Continued)

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, issued April 2018, will be effective for the City for reporting periods beginning after June 15, 2018. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

GASB Statement No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*, issued June 2018, will be effective for the City for reporting periods beginning after December 15, 2019. The primary objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 90, *Majority Equity Interests-An Amendment of GASB Statements No. 14 and No. 61*, issued August 2018, will be effective for the City for reporting periods beginning after December 15, 2018. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organizations should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

The City's management has not yet determined the effect these statements will have on the City's financial statements.

REQUIRED SUPPLEMENTAL INFORMATION

CITY OF MARSHFIELD, MISSOURI
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO BUDGETARY COMPARISON INFORMATION
DECEMBER 31, 2018

Explanation of Budgetary Process

The City Council follows the procedures outlined below in establishing the budgetary data reflected in the basic financial statements:

- a. City department directors prepare departmental operating budgets and the Director of Finance makes revenue projections on or before September 1st.
- b. Departmental meetings are conducted during the month of October with the City Manager and the Director of Finance to allow the departments to support their budgets.
- c. Preliminary budget summaries of revenues and expenditures/expenses are prepared for review by the City Manager.
- d. Final budget decisions are made by the City Manager by mid-November.
- e. A proposed budget is submitted to the City Council by the end of November.
- f. Prior to January 1st, the budget is legally enacted. Projected expenditures cannot exceed estimated revenues plus fund balances at the beginning of the year.
- g. Budgetary control is exercised by the City Council at the department and fund levels. This is the legal level of control. All unexpended appropriations lapse at year-end.

Budgets are adopted on a basis consistent with U.S. generally accepted accounting principles.

The budgeted amounts included in the basic financial statements are as originally adopted or amended by the City Council, pursuant to State Statutes. The City Council adopts annual budgets for the General Fund, Transportation Sales Tax Fund, Park Fund, Cemetery Fund and Debt Service Fund.

For the year ended December 31, 2018, actual expenditures were within budget.

2018	236,374	199,507	36,867	1,444,246	13.81%

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date: February 28, 2018

Notes: The roll-forward of total pension liability from February 28, 2018 to June 30, 2018 reflects expected service cost and interest reduced by actual benefit payments.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal and Modified Terminal Funding
Amortization Method	A level percentage of payroll amortization method is used to amortize the UAAL over a closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the remaining initial amortization period or (ii) 15 years.
Remaining Amortization Period	Multiple bases from 12 to 18 years
Asset Valuation Method	5-Year smoothed market: 20% corridor
Inflation	3.25% wage inflation; 2.50% price inflation
Salary increases	3.25% to 6.55% including wage inflation
Investment Rate of Return	7.25%, net of investment
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition.
Mortality	The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

SECTION III – STATISTICAL SECTION

CITY OF MARSHFIELD, MISSOURI

Statistical Section Overview

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

Contents	Pages
-----------------	--------------

Financial Trends	59 - 64
-------------------------	----------------

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity	65 - 69
-------------------------	----------------

These schedules contain information to help the reader assess the City's most significant local revenue sources.

Debt Capacity	70 - 73
----------------------	----------------

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information	74
---	-----------

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information	75 - 77
------------------------------	----------------

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the audited annual financial reports for the relevant year.
